MENTEE IN THE A/AA REACHING HIGHER MENTORING PROGRAM

Kelsey Bell, DHL Supply Chain Graduate Program

Bachelor of Aviation management Graduate, Swinburne University of Technology

"The program has been extremely beneficial for my studies, professional networking and career development. After applying I was lucky enough to be paired with Tracy, an exceptionally successful woman in the aviation and aerospace field. With years of experience she has been kind enough to share her knowledge via virtual catch ups (as international borders and Covid-19 have prevented us from meeting face-to-face). During these virtual calls, she has helped me improve my resume, prepare for interviews and grasp a better understanding of the industry. I recommend that all students studying aviation/ aerospace related courses should apply for the program, especially those looking to enter the workforce in the near future. I have now secured a highly sought- after position with the DHL Supply Chain Graduate Program in Sydney."

MENTOR IN THE A/AA REACHING HIGHER MENTORING PROGRAM

Katherine Bennell, Assistant Manager

Program and Capability, Australian Space Agency

"As a mentor I like to share tips and tricks you can't read about in a textbook about how to create, find and capture the career opportunities to succeed and contribute value."
